

Registration

Registration Currently enrolled students and their siblings will begin receiving contracts for the next school year in January. Contracts are handed out in order of application date with siblings having priority over other wait list children. Sibling applications must be received by December 1st for priority over wait list children.

Classes

The date of application determines the choice of days and morning or afternoon sessions. When the first 8-11 children in each class return their contracts with the appropriate enrollment fee, we will then go on to fill the next spaces in the class. When we come to your name on the list you will be offered the class or classes that we have available at that time. If the class you are offered is not the one you prefer, you have the choice to accept the contract so that you will have a spot in the program and ask to be placed on the wait list for other classes or you can refuse the contract and just stay on the wait lists. This takes quite a while to complete but we hope to have classes set by the end of February. Plan ahead! You will need to place a non-refundable enrollment fee of \$100 to reserve a spot in the class for next school year.
